The Province of

ALBERTA

CANADA

INTRODUCTION

The purpose in publishing the following list of industries and products of the Province of Alberta, Canada, is to provide those interested with comprehensive particulars of the products manufactured or processed in the province, and the names and addresses of firms engaged in the various industries.

No trade directory has been published since 1947. That year marked the great discovery of oil in the Leduc district, and a new era of industrial expansion began. Since then, progress has been rapid in the manufacture of petroleum products and the industry now ranks second in the role of manufacturing and processing within the province. In addition, the increased oil production has stimulated enterprise in the allied industries of chemical, iron and steel, and many others, by the foregoing discoveries in the industrial realm. Not alone has industry prospered but the merchandising and service establishments in Alberta and the neighbouring provinces have felt a great upsurge in retail sales and revenue within the past few years. Contingent on the unprecedented favourable conditions, there are more and better opportunities for employment than ever before. It is now felt a new directory is necessary to meet and to mark the growing demands of industry and to aid in increasing the rapid industrial development.

For the first time, a section classifying wholesalers and distributors in specific lines of industry is included to meet the wishes of industrialists who are desirous of possessing such a list.

The Industrial Development Board, Department of Economic Affairs, co-operated in making this list as complete and up-to-date as possible. The Board stands ready to assist and advise industrialists and distributors wishing to become established in Alberta, in all matters relating to new and existing markets. Where advantageous to producers and consumers, new industries are encouraged to locate in the Province of Alberta.

For markets Overseas, the Board's functions do not parallel nor overlap those of the Federal Trade Commissioners. However, the Board does seek to co-ordinate their efforts in relation to the economy of Alberta.

It is almost impossible to issue a list of industries which is perfectly accurate and up-to date. New industries are being established and older ones changing locations. However, every effort has been made to have this directory as accurate as possible. In the case of errors or omissions this department will appreciate receiving notification.

Alberta is indeed a fortunate province and its noteworthy development throughout the years has attracted the attention of industrialists and those interested in its wealth of natural resources. From a few industries in 1906 centering chiefly in agricultural products valued at $5, 000, 000, to over 1900 manufacturing establishments in 1950 embracing in addition the wide fieldsof minerals, chemicals,textiles, leather, steel products,etc., all valued at approximately $400, 000, 000, is a noteworthy record as the following figures will reveal.

MANUFACTURING INDUSTRIES - ALBERTA

YEAR	ESTABLISHMENTS (No.)	VALUE OF PRODUCTION ($)
1906	97	$ 5,000,000
1910	290	18,788,825
1915	282	29,416,221
1917	636	66,515,885
1918	555	75,154,639
1919	580	83,546,729
1920	666	89,952,537
1921	592	56,171,927
1922	556	49,129,307
1923	607	50,237,047
1924	631	61,078,561
1925	636	70,674,076
1926	640	78,675,108
1927	663	79,949,515
1928	691	94,915,557
1929	736	100,966,196
1930	758	88,361,723
1931	795	62,640,857
1932	848	49,772,810
1933	874	49,395,514
1934	868	64,139,973
1935	908	67,830,918
1936	905	74,052,010
1937	895	86,225,069
1938	970	86,675,500
1939	961	87,474,080
1940	1068	107,313,964
1941	1108	142,651,493
1942	1115	178,103,011
1943	1133	211,159,142
1944	1165	252,949,894
1945	1157	248,287,504
1946	1315	257,031,867
1947	1382	296,054,129
1948	1568	366,090,082
1949	1685	371,995,120

Supplementary to the firms engaged in manufacturing or processing are those in the coal, petroleum, natural gas, cement, clay products, etc., industries and in this connection the value of mineral production is given:___

MINERAL PRODUCTION - ALBERTA

YEAR	VALUE OF PRODUCTION ($)
1907	$ 4,657,524
1908	5,122,505
1909	6,047,447
1910	8,996,210
1911	6,662,673
1912	12,073,589
1913	15,054,046

MINERAL PRODUCTION - ALBERTA (Continued)

	VALUE OF PRODUCTION ($)
1914	$ 12,684,234
1915	9,909,347

LIST OF INDUSTRIES AND PRODUCTS - ALBERTA

Commodities are listed in alphabetical order, by cities, towns, villages, etc. Instead of furnishing the names and addresses of those engaged in each individual classification, industries are grouped, although the rule is not followed in all cases. This was done in order that small industries who failed to make a detailed report should not be overlooked. Under the group caption in the index letter section will be found a list of the establishments which manufacture the items specified, although not specially designated as such in detail.
